

Viivi Uhari

I am a dedicated and organized problem-solver with technical skills gained through my successful studies and practical experience. I have an energetic and positive personality and strong social skills, which are reflected in my experiences living abroad and tutoring. I am passionate about user research, user interface design, and web software development, and I look forward to contributing to meaningful projects by combining my diverse knowledge.

PROJECTS PORTFOLIO: viiviuhari.fi

EDUCATION | Aalto University

Master of Science (Technology) | 8/2023 – 12/2025

Major: Human-Computer Interaction

Minor: Computer Science – Web Technologies, Applications, and Science

Bachelor of Science (Technology) | Tutor | 8/2020 – 7/2023

Major: Computer Science

Minor: Information Networks

WORK EXPERIENCE

Aalto University

Research Assistant | [Thesis](#) | 3/2025 – 8/2025

Worked on my master's thesis investigating the impact of social media push notifications on wellbeing within a research group. My independent research included an experimental study and subsequent data analysis. A key focus was tracking social media activity through data donations, requiring extensive data processing and engineering in Python.

Fortum Oyj

Data Engineer, Summer Trainee | 5/2022 – 8/2022 and 5/2023 – 8/2023

Worked as a Data Engineer Summer Trainee for two summers at Fortum Business Technology in an agile team developing a new data platform. Contributed to building the platform's infrastructure using Terraform and AWS, and developed data processing pipelines using Scala and Python.

TA-Asumisoikeus Oy

Yard Work Trainee | 7/2021 – 8/2021

Maintained outdoor areas of TA buildings by pruning shrubs and branches, removing weeds, and ensuring overall cleanliness. Worked in a team of four.

Nispero Oy, Tähtitornin kahvila

Café Assistant | 7/2019 – 9/2019

Prepared baked goods, made coffee, and served ice cream in the kitchen. Assisted customers and maintained cleanliness in the kitchen and café.
